Dear Dr. Schwartz,

On behalf of myself and the Health and Wellness Committee for Capital Markets, we would like to thank you for volunteering your time to come and speak to us on September 22nd. Your passion for the profession and genuine concern for people's well being came through in your presentation and was very refreshing. It was obvious from not only the questions you inspired, but also from the interest and attention you were able to maintain, that you had everyone captivated with what you were saying.

We were very pleased with both the turnout and the feedback we received from our colleagues. Furthermore, following the presentation, we received a number of requests not only to obtain your contact information, but also to bring you back for another session. It was well noted that you explained the material to us in a clear, comprehensible manner, and took the time to discuss the things we should be paying attention to in our day to day lives here at work. That was of great value to all who attended and your advice has remained with us.

Once again, our sincere thanks for taking the time out of your busy schedule to be a part of our program and for the excellent introduction to Chiropractic.

Best regards,

Paola Barbarossa
